

'Innovation to Rebuild Lives'

WHO ARE WE?

The Hampton Trust was founded in 1996 to deliver Domestic Abuse Perpetrator Programmes within the Criminal Justice System. Since then The Hampton Trust has developed a range of Community based interventions for families experiencing Domestic Abuse alongside providing innovative Criminal Justice responses.

CO-LOCATION MODEL

Southampton Children's Services

The Hampton Trust in conjunction with Southampton City Council have identified that co-locating a member of The Hampton Trust to work alongside Children's Service teams would be beneficial for both services:

- To provide a Single Point of Contact for staff with Domestic Abuse queries, especially in relation to engaging perpetrators.
 - To provide **WEDNESDAY AFTERNOON** as a '**Drop In**' session for Children's Services staff. (Initially this will be virtually completed and eventually will be on site).
 - To provide specialist and active support and advice surrounding Domestic Abuse cases.
 - To provide Children's Services staff with advice and support around ADAPT thresholds and suitability.
 - To support early referrals being made into ADAPT Services by engaging with clients (perpetrator) earlier with consent of client obtained.
 - To support continuity of service when cases progress to PACT
 - To provide on site assessments (when able to be on site)
 - To provide and support Domestic Abuse workshops where required (when able to be on site)
- We are currently exploring:**
- The Male Engagement Worker who sits within the IDVA team to support the HRDA process, allowing HRDA to refer directly into Hampton Trust services for interventions work.

CONSULTATION SLOTS ARE AVAILABLE:

WEDNESDAY AFTERNOONS from 1PM – 4PM WEEKLY
